

Wanhuida Partners speak at Chemical IP Forum in Suzhou

Time: July 26
2024

From 25th to 26th July 2024, the 2nd Chemical IP and Innovation Forum, which is jointly organized by event organizer Zhi Wen and its affiliate, is held in Suzhou.

Featuring “IP risk prevention and control fueling innovation and growth of chemical industry”, the event focuses on the theme discussion of “In-depth Discussion over Patent, Trademark and IP Operation” and “Trade Secret Protection”.

Tang Tiejun, Partner of Wanhuida Intellectual Property, shares insights on the “Best Patent Drafting Strategy in the Context of Patent Invalidation and Infringement Suit”. Ms. Tang dissects how the pitfalls in initial patent drafting strategy could hinder or

even jeopardize the patentee's chances of success in the patent invalidation and infringement proceeding. She offers some practical takeaways in avoiding such pitfalls, which is well received by the participants.

Tang Tiejun

The firm's Partner Hu Honghui moderates the panel discussion on *"New Routes of Chemical Enterprises in Managing IP & Building Patent Portfolio in the Context of Globalisation"*. Fellow speakers include in-house counsels from a few industrial leaders in the material field, among others.

Hu Honghui

Chen Xiaolei, General Manager of the firm's East China Patent Practice, associate Guan Yue and Patent Counsel Li Juanjuan also attend the forum.
